

Selecting the Correct Lighting Kit

Due to the popularity of digital cameras and the resulting affect on how strobe units are used, Nadel is providing the following User Guidelines for Opus and LumaHawk monolight product lines.

Included in the User Guideline is an Intended Use category for assisting with matching the appropriate lighting kit with the consumers experience and intended use.

Categories

Product: Monolight product line.

Recycle time: The minimum time between flashes.

Burst flashes: The number of continuous flashes at the minimum recycle times.

Intended User: Matching the correct product with the consumers requirements.

Kits: List of kits containing the monolight.
